

Serial No. **10/715,419**

Docket No. **IK-0070**

Amendment dated February 28, 2006

Reply to Office Action of November 1, 2005

Amendments to the Drawings:

The attached drawings include a change to Fig. 3, in which Fig. 3 is re-labeled Fig. 3A, and the addition of Fig. 3B. Fig. 3B has been added to show a press plate made of a transparent synthetic resin material, as recited in claim 6 as originally filed. It is respectfully submitted that the subject matter of claim 6 is part of the specification as originally filed, and thus the addition of Fig. 3B is not new matter.

Attachment: Replacement Sheet (1)
Annotated Sheet Showing Change (1)
New Sheet (1)

Amendments to the Specification:

Please replace the third paragraph on page 4, beginning at line 5 with the following amended paragraph:

~~FIG. 3 is an~~ FIGS. 3A and 3B are exploded perspective view-views showing a detailed ~~configuration~~ configurations of the tray according to ~~the embodiment~~ embodiments of the present invention; and

Please replace the third paragraph on page 5, beginning at line 12 with the following amended paragraph:

The press plate 130 is provided in the tray recess 124. The press plate 130 is generally shaped as a rectangle ~~and configured to have~~. The press plate 130 shown in FIGS 2, 3A and 4 has a rectangular frame wire 132 of which opposite sides are coupled with a plurality of connection wires 133. Since the frame wire 132 and the connection wires 133 have a predetermined diameter, they are not easily bent even though an external force is exerted thereon. Alternatively, the press plate 130 may also be made of a generally rectangular transparent synthetic resin plate 132, as shown in FIG. 3B.
